

How do you think Blue Heron should develop? - Sticky note responses

Entry	Response
1	Expand parks, low density residential, no apartments, no commercial with apartments on top, baseball field, and basketball court expansion
2	Single family units - low density
3	Expand parks and possibly look into SFE properties. Don't turn Blue Heron into major thoroughfare.
4	No commercial use at all! Maybe a football field, soccer, baseball, or basketball court
5	Expanding Blue Heron park
6	Controlled use of land, no removal of paths, exercise areas, pavilion, small public venue for events and concerts outdoors, small animal/botanical sanctuary
7	expand parks with more play space, low density homes, no apartments, no convenience stores, community garden space
8	Desire for no MF3 or MF2 housing
9	If anything is built there, please make sure it looks very nice.
10	Blue Heron should be used for school growth.
11	Single family housing units, low density. It's safest for the school and all the children.
12	Park Space "Green Zone"
13	No Apartments, no nail salons, no convenience stores, no bars, no warehouses
14	Small scale commercial, extension of parks, or school expansion
15	No apartments/MF2 mixed use okay along Blue Heron if it is small businesses that shut down around 7:00. Keep in consideration of school to keep out criminal activity (robbery of businesses, car wash drug deals)
